

Employ Better with Helpside

Contractors working with Helpside reduce their liability and risk through improved employee safety and increased compliance. Companies who work with a PEO like Helpside experience higher revenue and growth and are more likely to stay in business. Referring your subcontractors to Helpside can help ensure a stable, long-lasting relationship.

Key Benefits:

Improved employee safety

Through access to Helpside's training programs, templates, forms, assessments, and consultative services, subcontractors reduce overall work comp costs and keep employees healthy and safe at work.

Greater revenue

Expected annual median revenue growth for companies working with a PEO is 40% greater and companies are 16% more likely to report increased profitability than those companies who don't.

Increased compliance

Helpside's Safety Director works directly with subcontractors to reduce work-related injuries and improve OSHA compliance. Helpside's experts in payroll and human resources help contractors avoid costly fines and lawsuits.

Faster growth

Small businesses using a PEO grow 7% to 9% faster than other small businesses not using PEOs due to cost savings on benefits and workers' compensation and increased employment efficiencies.

Common subcontractors types working with Helpside:

- Concrete
- Finish carpentry
- Cabinet installation
- HVAC
- Plumbing
- Electricians
- Flooring
- Fence installation
- Interior painting
- Landscaping
- Insulation
- Excavating (no trenching > 4 feet)

After experiencing a work comp experience modifier (emod) **increase of 43%**, **Davis Concrete Enterprises** engaged the expertise of Helpside's Safety Director to help improve their safety program and provide employee training. The company's emod has now been .69 or lower for the past five years resulting in **savings of \$35,000**.
