

Give Your Business an HR Team, Without Adding Headcount

Whether HR is one more thing on your plate, or already someone's full-time job, Helpside adds real depth and expertise, without taking over decisions that are still yours to make.

Where This Makes The Biggest Difference

No Dedicated HR Person

Compliance questions, policy gaps, and employee relations issues tend to get handled reactively, if at all.

An HR Department of One

One person covering hiring, policy, compliance, and every day-to-day question, with no backup and no second opinion.

Policies That Haven't Kept Pace with Growth

An outdated handbook, or none at all.

The Questions That Come Up Rarely.

FMLA, ADA, and leave situations don't happen often enough for anyone, even an experienced HR person, to stay sharp on the details alone.

Why It Matters

You're never figuring it out alone.

HR staff or not, there's always a specialist to call.

Your team gets more capacity.

HR staff gain a bench of specialists behind them, for the projects there's never time to get to otherwise.

Decisions stay yours.

Helpside provides guidance and support. You make the calls for your business, the same as you always have.

What Helpside Provides

HR specialist access by phone and email, whenever a question comes up.

A policy guide and HR forms library, reviewed and customized to your business, whether you're starting from scratch or want a fresh set of eyes on what you already have.

I-9 and E-Verify support.

Unemployment claims guidance and representation.
