

A Simpler Way to Run the People Side of Your Business

Payroll, benefits, HR, and workplace risk can become a full-time job long before you are ready to build full departments. Helpside brings those functions together with real specialists and practical technology, so you can spend more time running your business.

PLAIN-LANGUAGE ANSWER

What Is A PEO?

PEO stands for Professional Employer Organization.

Think of it as an experienced employment back office.

Helpside works alongside your business to support payroll, employee benefits, HR, and risk management in one coordinated partnership.

You still run your company. You hire and lead your people, set pay, shape your culture, and make employment decisions. Helpside gives your team more support behind the scenes.

What Can Be Included In A Helpside Partnership?

Payroll

Payroll processing, direct deposit, tax filings, reporting, time and attendance tools, PTO tracking, garnishments, and employee self-service—with a dedicated payroll specialist.

Employee Benefits

Medical, dental, vision, life, disability, and supplemental options, plus online enrollment, benefits administration, required notices, and employee support.

Human Resources

Phone and email access to HR specialists, policy and handbook support, forms, FMLA and ADA guidance, I-9 and E-Verify assistance, unemployment support, and training.

Risk Management

Workers' compensation administration, claims coordination, workplace safety support, training resources, audits, accident investigations, and OSHA-related assistance.

Why Businesses Choose Helpside

A more affordable way to add capability

Get benefits, systems, and specialist support without building every function in-house or managing a patchwork of separate vendors.

More time for the work that grows the business

Move recurring administration and unfamiliar employment questions off the owner's or office manager's desk.

Real people when you need help

No phone-tree runaround. Helpside combines online self-service with direct access to specialists who can help answer questions.

Support that grows with you

Add structure as hiring, new locations, benefits needs, payroll complexity, and compliance responsibilities increase.

Small Business Scale Big Company Support

I love the PEO structure. I could never be—and I don't want to be—a specialist in benefits, HR, or payroll. We come to Helpside and get that all in one place.
